AMENDMENTS

Please cancel claims 1-3 and add new claims 4-31 as follows:

New Claims:

4. A thermally conductive structure, comprising:
- a layer of adhesive having a pair of opposing surfaces, the opposing surfaces being a first opposing surface and a second opposing surface, the first and second surfaces being spaced from one another along a direction defined as a vertical direction;
- a plurality of flocked, thermally conductive fibers embedded in the adhesive, the fibers having first portions which extend upwardly out of
